DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Biladeou on July 12, 2005.

The application has been amended as follows:

Claims

7. A method of making a wiring board, comprising the steps of: forming an opening at a predetermined position in an insulating substrate; forming a wiring pattern on the surface of said insulating substrate such that one end of said opening is shut by said wiring pattern to form the bottom of said opening; forming a thin film conductor on the surface of said wiring pattern and at the bottom of said opening; and forming an embedded conductor layer in said opening and on the surface of said thin film conductor formed at the bottom of said opening; **wherein thin film conductor is formed between said wiring pattern and said embedded conductor layer,** wherein said thin film conductor includes a gold plating layer formed on the surface, and said embedded conductor layer is of a conductor that has a rate of solution to tin or an alloy including tin lower than that of gold.

Allowable Subject Matter

Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1-3 are allowable because prior art does not show alone or in combination along with the limitations of the independent claims such as the embedded conductor layer is formed between the thin film conductor and external connection terminal.

Claims 4-9 are allowable because prior art does not show alone or in combination along with the limitations of the independent claims such as the thin film conductor formed between wiring (wiring pattern) and embedded conductor layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kiesha L. Rose whose telephone number is 571-272-1844. The examiner can normally be reached on M-F 8:30-6:00 off 2nd Mondays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Amir Zarabian can be reached on 571-272-1852. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
